

FINAL TERMS
for Loan No 4236 A and B
issued under
Nordea Bank AB's (publ) and Nordea Bank Finland Plc's
Swedish MTN programme¹

The terms and conditions of the Loan consist of the MTN programme's Terms and Conditions that entered into force on 4 June 2008, any published Supplemental Prospectuses and these Final Terms. The Terms and Conditions of the Banks' MTN programme have been described in the Base Prospectus. Concepts not defined in these Final Terms have the same meanings as in the Terms and Conditions. Should the Terms and Conditions conflict with the Final Terms, the Final Terms are applied.

Complete information on the Issuer and the offer can only be obtained by reading both the Base Prospectus and the Final Terms. The Base Prospectus is available for viewing at www.nordea.fi/joukkolainat and copies of the Base Prospectus and the Final Terms may be obtained from Nordea Bank Finland Plc, Treasury and Markets, Aleksis Kiven katu 9, Helsinki, Finland, as well as from the places of subscription.

DETAILS OF THE LOAN

Loan type

Loan 4236 A and B Index-linked Bond Infrastructure is approximately a 5-year MTN in which the potential Additional Amount depends on the Performance of the equity index serving as the Reference Asset. The Loan is capital-guaranteed on the Redemption Date.

The Reference Asset is the following equity index: S&P Global Infrastructure Index.

The S&P Global Infrastructure Index comprises seventy-five companies from the infrastructure sector. The companies within the index have been divided into three subsectors, which are energy (weight ca 20%), transportation (weight ca 40%) and commodities (weight ca 40%). The business of the companies in the energy sector is mainly related to transportation and storage of oil and gas. The transportation sector consists of airport services, highways, railroads, sea ports and services. The business of companies engaged in the commodities sector is connected with the production and distribution of electricity, gas, water and other commodities. For further information on the index, please visit <http://www.spglobal.com/>

Additional Amount

The potential Additional Amount is paid on the nominal value of each Note on the Redemption Date. The potential Additional Amount is based on the performance of the shares forming the Reference Asset, in other words, on the relative positive change between the Reference Asset's Initial and Final Price taking into account the value of the shares included in the Reference Asset and the loan-specific Participation Rate. The Additional Amount is calculated as follows:

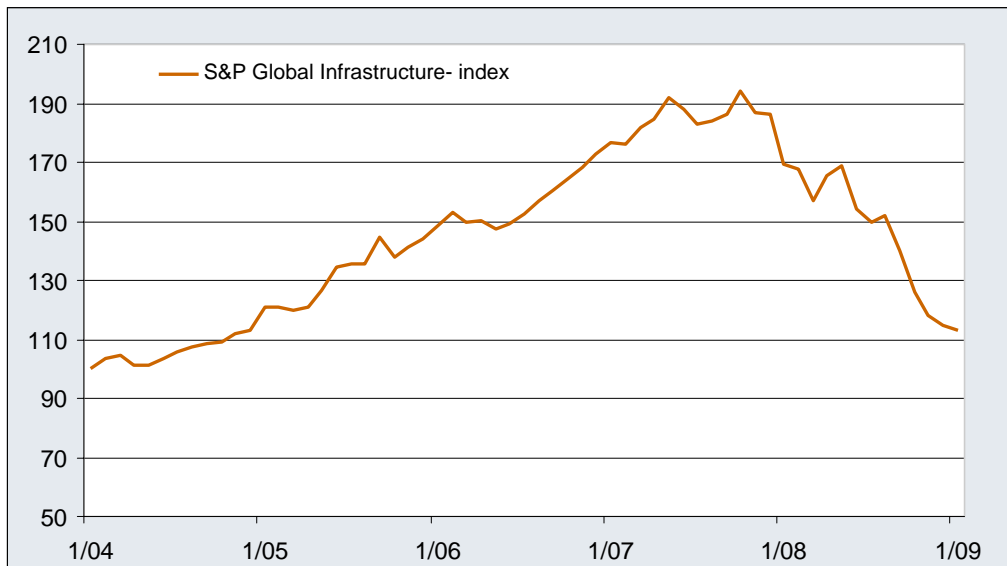

Performance x nominal value of a Note x Participation Rate.

¹ MTN programme reported to the Finnish Financial Supervision Authority from Sweden in accordance with the Prospectus Directive.

If the Reference Asset Performance is zero or negative, no Additional Amount will accrue on the Loan.

Historical performance of the Reference Asset

General risks

Investing in the Loan involves certain risks. Thus investors are asked to read about the risks under “Risk Factors” in the Base Prospectus.

Risks involved in structured MTNs

The creditor's right to the yield depends on the Reference Asset Performance and performance structure. In addition to the price fluctuations of the Reference Asset, the volatility of the Reference Asset, the correlation between the shares and the market rate have an impact on the value. The yield structure of structured MTNs is sometimes complex, and comparison of the Notes with other investment alternatives may be difficult. The yield structure may sometimes include leverage effects so that even small changes in the Reference Asset Performance may have a notable impact on the value and yield of the Notes. Past performance of a corresponding investment is not an indication of future yield.

Additional risks

If the Reference Asset Performance is zero or negative, no Additional Amount will accrue on the Loan. In that case, the Redemption Amount equals the nominal value of the Loan, and the investor thus loses an amount corresponding to the difference between the Subscription Price and nominal value (in Tranche Extra, the premium).

If one or more of these dates is not an Exchange Day, the Closing Date is determined according to the Exchange Day Convention, with possible exceptions caused by market disruptions included.
Final Price	The arithmetic average of the Closing Prices of the Reference Asset on the Closing Dates, confirmed by the Issuer.
Exchange Day	Exchange Day is a day on which the index serving as the Reference Asset is published and trading can be executed in the Exchange concerned or in an Option Exchange or a Forward Exchange, as determined by the Issuer.
Exchange Day Convention	Following Exchange Day.
Business Day	A Business Day refers to a day when banks are generally open in Finland and when the TARGET system of the European Central Bank is in use.

Business Day Convention	Following Business Day.
Exchange	In relation to a share included in the Reference Asset, Exchange refers to a securities exchange where such a share is primarily traded at any given time, as determined by the Issuer.
Option or Forward Exchange	An Option Exchange or a Forward Exchange refers (where applicable) to an exchange where the options and forward contracts of the shares included in the Reference Asset are primarily traded, as determined by the Issuer.
Market Disruption	<p>A Market Disruption relating to the Reference Asset exists when, in the Issuer’s opinion, any of the following events occurs:</p> <ul style="list-style-type: none"> i. the official closing price of the Reference Asset or its essential component is missing, unavailable or no longer quoted; ii. the composition of the Reference Asset changes or the value of the Reference Asset is no longer published; iii. the relevant Exchange or Option or Forward Exchange is not open for trading during its normal opening hours; iv. trading in the Reference Asset or its essential component ceases, is suspended or materially restricted; v. the possibilities for market participants to trade in the Reference Asset or its essential component, or to obtain the market value of the Reference Asset or its essential component from an Exchange, cease, are discontinued or materially deteriorate for any other reason.

In such a case:

- a. The limited opening hours of an Exchange or an Option or Forward Exchange are not considered to constitute a Market Disruption, if the limitation is caused by a public change to the normal opening hours of the said Exchange.
- b. Limitation of trading during any given day constitutes a Market Disruption, if the restriction is due to price increases exceeding the permissible price level of the Exchange in question or an Option or Forward Exchange.

If, in the Issuer’s opinion, a Market Disruption exists on the Starting or Closing Date, the Starting or Closing Date for the determination of the Initial Price, Final Price or Closing Price is the following Exchange Day on which a Market Disruption does not exist. However, where a Market Disruption exists on eight consecutive Exchange Days that immediately follow the original Starting or Closing Date, the eighth Exchange Day is deemed to be the Starting or Closing Date irrespective of the existence of a Market Disruption. In such a case, the Issuer must determine the Initial Price, Final Price and/or Closing Price to be used in calculating the

Performance.

Revised Calculation

If the composition of a Reference Asset is changed materially or if the Reference Asset value is no longer calculated or published, the Issuer must replace the Reference Asset with a corresponding alternative when calculating the Performance. If the value of such Replacement Reference Asset is not calculated and published, as determined by the Issuer, or if the calculation method of the Reference Asset or its value changes materially, as determined by the Issuer, the Issuer is entitled to revise the calculation method of the Reference Asset value as it sees fit. The replacement calculation method must be based on the previous composition, calculation and publication of the Reference Asset and reflect them.

If the Issuer considers that replacement of the Reference Asset or revision of the applicable calculation method will not lead to a reasonable result, the Issuer may establish the Redemption Amount to be repaid to the Creditors and calculate the potential Additional Amount accrued thus far. After the Issuer has established the Redemption Amount, it must notify the Creditors of this amount. It must also state the interest rate to which the Loan will be tied in the future. The Issuer must pay market interest on the Redemption Amount. Both the Loan and interest will be repaid on the Redemption Date.

In connection with a Revised Calculation, the Issuer has the right to amend the Final Terms as it sees fit.

Adjustment

The Issuer is entitled to rectify the Initial, Final and/or Closing Price of the Reference Asset if the official Closing Price of the Reference Asset is adjusted during a period (from original publication) that customarily passes between the transaction and payment dates of a spot transaction in the Reference Asset or shares included in the Reference Asset; however, at the latest three Exchange Days after Starting Date or Closing Date if such price has been used in determining the Initial, Final or Closing Price.

Special Situations

If a Reference Asset share or a company whose shares are included in the basket of shares constituting the Reference Asset, is subject to, as determined by the Issuer, delisting, nationalisation, bankruptcy, liquidation, corporate restructuring, expropriation, merger, split-up, surrender of business, share exchange, exchange offer, public purchase offer or a similar event, or a share or a basket of shares constituting the Reference Asset is subject to, as determined by the Issuer, a split, rights issue, bonus issue, issue of option rights or convertible bonds, combination, repurchase or other event referred to in the Final Terms, the Issuer has the right to revise the calculation method of the Performance and/or the composition of the Reference Asset, or to replace the Reference Asset with a Replacement Reference Asset in a manner that is, as determined by the Issuer, necessary to arrive at a calculation of the Performance that reflects it and is based on the previous calculation method.

If the Issuer considers that such revisions cannot provide a reasonable outcome, the Issuer may calculate the Additional Amount prematurely and establish the Redemption Amount. After having established the Redemption Amount, the Issuer must notify the Creditors of the Redemption Amount and the interest rate which the Loan will be tied to in

the future. The Issuer must pay market interest on the Redemption Amount. The Loan and interest are repaid on the Redemption Date.

In connection with Special Situations, the Issuer has the right to amend the Final Terms as it sees fit.

Replacement Reference Asset Replaces the Reference Asset at the Issuer's discretion in accordance with the criteria stated in these Final Terms from the date determined by the Issuer.

Legislative amendment (a) If, according to the Issuer's estimate, it would be illegal, essentially more difficult than before or seriously damaging to the Issuer's reputation to issue or own Structured MTNs, or if it would be illegal, essentially more difficult than before or seriously damaging to the Issuer's reputation for the Issuer or another party to own, acquire or sell the Reference Asset or a derivative instrument comparable to the Reference Asset that can be used to hedge the risk related to the Issuer's Loan (such as a share that forms a part of the Reference Asset) due to an amendment to an act, statute, provision or similar or to a decision of the authorities or to their application, or a postponement of payment, currency restriction, confiscation, embargo or boycott concerning a central bank, the Swedish or Finnish State or a supranational corporation, such as the UN or EU, the Issuer may decide to replace the Reference Asset with a Replacement Reference Asset, or alternatively adjust the Additional Amount.

(b) If the Issuer estimates that replacement of the Reference Asset or adjustment to the calculation does not lead to a reasonable result, the Issuer may calculate the potential Additional Amount and/or yield prematurely and confirm the Additional Amount and/or yield. Such premature calculation must be based on the last published value of the Reference Asset. After having confirmed the Additional Amount and/or yield, the Issuer must notify the Creditors of the Additional Amount and/or yield and of the interest rate which the Loan will be tied to in the future. The Issuer must pay market interest on the Principal. The Redemption Amount and interest are paid on the Redemption Date.

(c) The Issuer must make all additions and changes to the Final Terms that the Issuer considers necessary in connection with an amendment to law.

Increased risk management costs If the Issuer estimates that its costs related to the ownership, acquisition or sale of the Reference Asset or risk management costs would essentially increase due to an amendment to an act, a statute, a provision or similar or to a decision of the authorities or to their application, the Issuer may decide to replace the Reference Asset with a Replacement Reference Asset.

If the Issuer estimates that replacement of the Reference Asset or adjustment to the calculation does not lead to a reasonable result, the Issuer may calculate the potential Additional Amount prematurely and confirm the Additional Amount. Such premature calculation must be based on the last published value of the Reference Asset. After having established the Additional Amount, the Issuer must notify the Creditors of the Additional Amount and the interest rate which the Loan will be tied to in the future. The Issuer must pay market interest on the Principal. The Redemption Amount and interest are paid on the Redemption Date.

The Issuer must make all the additions and changes to the Final Terms that it deems necessary in connection with increased risk management costs.

Other terms

The modifications in Annex 1 to the Terms and Conditions are applied to this Loan insofar as they concern Notes governed by Finnish law.

Registering securities book-entry Book-entry securities are registered in the book-entry account assigned by the subscriber on the third Business Day at the latest from the expiry of the Subscription Period in accordance with the Act on the Book-Entry System and the Act on Book-Entry Accounts and the rules and regulations of Euroclear Finland Oy (“APK”). Book-entry securities are not freely transferable until they have been registered in a book-entry account.

Creditor’s consent to disclosure of information on itself to APK is under obligation to keep the information on the Creditors secret and hence such information is not available to the Issuer without the Creditor’s consent. The Creditor agrees that the Issuer is entitled to receive and APK upon the Issuer’s request to disclose information on the Creditors, including the Creditor’s name, contact information and business identity code, if any, for the purpose of giving notifications on the Note.

Secondary market In normal market conditions the Issuer, Nordea Bank Finland Plc, quotes a repurchase price for the Loan. It may be lower or higher than the nominal amount of the Loan.
