FINAL TERMS

Loan No 4364 A and B

Index-linked bond Pharma

issued under

Nordea Bank AB's (publ) and Nordea Bank Finland Plc's

Swedish MTN programme¹

The terms and conditions of the Loan consist of the MTN programme's Terms and Conditions that entered into force on 29 May 2009, any published Supplemental Prospectuses and these Final Terms. The banks' General Terms of the Medium-Term Note Programme are described in the Base Prospectus. Concepts not defined in these Final Terms have the same meanings as in the Terms and Conditions. Should the Terms and Conditions conflict with the Final Terms, the Final Terms are applied.

Complete information on the Issuer and the offer can only be obtained by reading both the Base Prospectus and the Final Terms. The Base Prospectus and the Final Terms are available for viewing at www.nordea.fi/joukkolainat and copies of the Base Prospectus and the Final Terms may be obtained from Nordea Bank Finland Plc, Treasury and Markets, Aleksis Kiven katu 9, Helsinki, Finland, as well as from the places of subscription.

DETAILS OF THE LOAN

Loan type

Loan 4364 index-linked bond Pharma Basic and Extra is an approximately 5-year index-linked MTN in which the amount of Yield paid on the Loan at maturity is based on the performance of the STOXX Europe 600 Health Care (Price) Index, which forms the Reference Asset.

The nominal principal of the Loan is returned on the Redemption Date.

Return on the Loan

A possible Yield is paid on the nominal value of each Note of the Loan if the Final Price which is calculated on the basis of the arithmetic average on the Closing Dates in accordance with these terms is higher than the Initial Price. The Participation Rates of the tranches are taken into account in the payment of the Yield.

The Yield is the higher of the following:

Participation Rate x Reference Asset Performance x nominal amount

or

zero.

If the Final Price of the Reference Asset equals the Initial Price or is lower than the Initial Price, no Yield is paid to the Noteholder.

¹ MTN programme reported to the Finnish Financial Supervisory Authority and to the corresponding authorities in Estonia, Latvia and Lithuania from Sweden in accordance with the Prospectus Directive.

General risks

Investing in the Loan involves certain risks. Furthermore, the Loan involves a risk of the Issuer's repayment ability. Consequently, potential investors are asked to read about the risks under 'Risk Factors' in the Base Prospectus.

Risks involved in structured MTNs

The creditor's right to the Yield depends on the Reference Asset Performance and performance structure. In addition to the price fluctuations of the Reference Asset, the volatility of the Reference Asset, the market rate and changes in the Issuer's financing cost have an impact on the value. The yield structure of structured MTNs is sometimes complex, and comparison of the Notes with other investment alternatives may be difficult. The yield structure may sometimes include leverage effects so that even small changes in the Reference Asset Performance may have a notable impact on the value and yield of the Notes. Past performance of a corresponding investment is not an indication of future yield.

Additional risks

If the Reference Asset Performance is zero or less, no Yield will accrue on the Loan. In that case, the Redemption Amount equals the nominal value of the Loan, and the investor thus loses the premium relating to the subscription, if any.

If the day is not an Exchange Day, the Closing Date is determined according to the Exchange Day Convention taking possible exceptions caused by a Market Disruption into account.
Exchange Day	Exchange Day is a day on which the value of the Reference Asset is published and trading can be executed on the relevant Option Exchange or a Forward Exchange, as determined by the Issuer.
Business Day	A Business Day refers to a day when banks are generally open in Finland and when the TARGET system of the European Central Bank is in use.
Business Day Convention	Following Business Day
Exchange Day Convention	Following Exchange Day If the value of the Reference Asset cannot be determined due to a Market Disruption, the value of the Reference Asset is postponed to be determined the first day following the day when the value of the Reference Asset is published and trading is possible on the relevant Option Exchange or Forward Exchange, as determined by the Issuer.
Option or Forward Exchange	An Option Exchange or a Forward Exchange refers (where applicable) to an exchange where the options and forward contracts of the Reference Asset are primarily traded, as determined by the Issuer.
Market Disruption	A Market Disruption relating to the Reference Asset exists when, in the

Issuer's opinion, any of the following events occurs:

- i. the official closing price of the Reference Asset or its essential component is missing, unavailable or no longer quoted;
- ii. the composition of the Reference Asset changes or the value of the Reference Asset is no longer published;
- iii. the relevant Exchange or Option or Forward Exchange is not open for trading during its normal opening hours;
- iv. trading in the Reference Asset or its essential component ceases, is suspended or materially restricted;
- v. the possibilities for market participants to trade in the Reference Asset, its essential component or option or forward contracts related to it, or to obtain the market value of the Reference Asset or its essential component from an Exchange, cease, are discontinued or materially deteriorate for any other reason.

In such a case:

- a. The limited opening hours of an Exchange or an Option or Forward Exchange are not considered to constitute a Market Disruption, if the limitation is caused by a public change to the normal opening hours of the said Exchange.
- b. Limitation of trading during any given day constitutes a Market Disruption, if the limitation is due to price increases exceeding the permissible price level of the Exchange or Option or Forward Exchange in question.

If, in the Issuer's opinion, a Market Disruption exists on the Starting or Closing Date, the Starting or Closing Date for the determination of the Initial Price, Final Price or Closing Price is the following Exchange Day on which a Market Disruption does not exist. However, where a Market Disruption exists on eight consecutive Exchange Days that immediately follow the original Starting or Closing Date, the eighth Exchange Day is deemed to be the Starting or Closing Date irrespective of the existence of a Market Disruption. In such a case, the Issuer must confirm the Initial Price, Final Price and/or Closing Price to be used in calculating the Performance.

Revised Calculation

If the composition, calculation or publication of the Reference Asset ceases entirely or partly, or the characteristics of the Reference Asset are changed in a way that the Issuer considers essential, the Issuer is entitled to change the calculation method of the Performance and/or the composition of the Reference Asset, or to replace the Reference Asset in question with a corresponding alternative. If, as determined by the Issuer, a corresponding Reference Asset is not formed, calculated or published, or if the calculation method of the Reference Asset or its value is changed essentially, as determined by the Issuer, the Issuer is entitled to make such revisions to the calculation that the Issuer considers well-grounded in view of the calculation of the value of the Reference Asset, in a manner that reflects and is based on the way it was previously formed, calculated or published. The value that is calculated in the described manner replaces the value of

the Reference Asset when the Performance is calculated.

If the Issuer considers that replacement of the Reference Asset or adjustment to the calculation does not lead to a reasonable result, the Issuer may calculate the Yield prematurely and establish the Yield. After having established the Yield, the Issuer must notify the Creditors of the amount of the Yield and the interest rate which the Loan will be tied to in the future. The Issuer must pay market interest on the Principal. The Redemption Amount and interest are paid on the Redemption Date.

The Issuer is entitled to make all additions and adjustments to these Final Terms of the Loan that the Issuer considers necessary in connection with a Revised Calculation.

Adjustment

The Issuer is entitled to rectify the Initial, Final and/or Closing Price of the Reference Asset if the official closing price of the Reference Asset is adjusted during a period (from original publication) that customarily passes between the transaction and payment dates of a spot transaction in the Reference Asset; however, at the latest three Exchange Days after the last Closing Date if such price has been used in determining the Initial, Final or Closing Price.

Special Situations

If a Reference Asset share or a company whose shares are included in the index constituting the Reference Asset, is subject to, as determined by the Issuer, delisting, nationalisation, bankruptcy, liquidation, corporate restructuring, expropriation, merger, split-up, surrender of business, share exchange, exchange offer, public purchase offer or a similar event, or a share or an index basket constituting the Reference Asset is subject to, as determined by the Issuer, a split, rights issue, bonus issue, issue of option rights or convertible bonds, combination, repurchase or other event referred to in the Final Terms, the Issuer has the right to revise the calculation method of the Performance and/or the Share Basket composed of the Reference Assets, or to replace the Reference Asset with a Replacement Reference Asset in a manner that is, as determined by the Issuer, necessary to arrive at a calculation of the Performance that reflects it and is based on the previous calculation method.

If the Issuer considers that such revisions cannot provide a reasonable result, the Issuer may calculate the Yield prematurely and establish the Redemption Amount. After having established the Redemption Amount, the Issuer must notify the Creditors of the Redemption Amount and the interest rate which the Loan will be tied to in the future. The Issuer must pay market interest on the Redemption Amount. The Loan and interest are repaid on the Redemption Date.

In connection with Special Situations, the Issuer has the right to amend these Final Terms as it sees fit.

Replacement Reference Asset

Replaces the Reference Asset at the Issuer's discretion in accordance with the criteria stated in these Final Terms from the date determined by the Issuer.

Legislative amendment

If, as determined by the Issuer, it were illegal, essentially more difficult than before or seriously damaging to the Issuer's reputation to issue or own Structured MTNs, or if it were illegal, essentially more difficult than before or seriously damaging to the Issuer's reputation for the Issuer or another party to own, acquire or sell the Reference Asset or a derivative instrument comparable to the Reference Asset that can be used to hedge the risk

related to the Issuer's Loan (such as a share that forms a part of the Reference Asset) due to an amendment to an act, statute, provision or similar or to a decision of the authorities or to their application, or a postponement of payment, currency restriction, confiscation, embargo or boycott concerning a central bank, the Swedish or Finnish State or a supranational corporation, such as the UN or EU, the Issuer may decide to replace the Reference Asset with a Replacement Reference Asset, or alternatively adjust the Additional Amount.

If the Issuer considers that replacement of the Reference Asset or adjustment to the calculation does not lead to a reasonable result, the Issuer may calculate the Yield prematurely and establish the Yield. Such premature calculation must be based on the last published value of the Reference Asset. After having established the Yield, the Issuer must notify the Creditors of the Additional Amount and the interest rate which the Loan will be tied to in the future. The Issuer must pay market interest on the Redemption Amount. The Redemption Amount and interest are paid on the Redemption Date.

The Issuer is entitled to make all additions and amendments to these Final Terms that the Issuer considers necessary in connection with a legislative amendment.

Increased risk management costs

If the Issuer considers that its costs related to the ownership, acquisition or sale of the Reference Asset or risk management costs would essentially increase due to an amendment to an act, a statute, a provision or similar or to an amendment to a decision of the authorities or to their application, the Issuer may decide to replace the Reference Asset with a Replacement Reference Asset.

If the Issuer considers that replacement of the Reference Asset or adjustment to the calculation does not lead to a reasonable result, the Issuer may calculate the potential Additional Amount prematurely and establish the Additional Amount. Such premature calculation must be based on the last published value of the Reference Asset. After having established the Additional Amount, the Issuer must notify the Creditors of the Additional Amount and the interest rate which the Loan will be tied to in the future. The Issuer must pay market interest on the Redemption Amount. The Redemption Amount and interest are paid on the Redemption Date.

The Issuer is entitled to make all the additions and changes to these Final Terms that it deems necessary in connection with increased risk management costs.

Risk Management Disruption

In order to manage risks, the Issuer must have the possibility to own, possess, acquire, re-establish, replace, cancel and sell the Reference Asset or part of it, to conclude agreements related to the Reference Asset and to make investments related to the Reference Asset. If the Issuer estimates that it does not have any possibility to implement the above matters or despite implementing reasonably required measures it is essentially more difficult than initially, the Issuer may decide to replace the Reference Asset with a Replacement Reference Asset.

If the Issuer considers that replacement of the Reference Asset or adjustment to the calculation does not lead to a reasonable result, the Issuer may calculate the Yield prematurely and establish the Yield. Such premature calculation must be based on the last published value of the

Reference Asset. After having established the Yield, the Issuer must notify the Creditors of the amount of the Yield and the interest rate which the Loan will be tied to in the future. The Issuer must pay market interest on the Redemption Amount. The Redemption Amount and interest are paid on the Redemption Date.

The Issuer is entitled to make all additions and amendments to these Final Terms that the Issuer considers necessary in connection with a Risk Management Disruption.

Other Terms

The modifications in Annex 1 to the Terms and Conditions are applied to this Loan insofar as they concern Notes governed by Finnish law.

Registering securities	book-entry	Book-entry securities are registered in the book-entry account assigned by the subscriber on the third Business Day at the latest from the expiry of the subscription period in accordance with the Act on the Book-Entry System and the Act on Book-Entry Accounts and the rules and regulations of Euroclear Finland Oy ('EFi').
