

Information about pension fund

Management company:	"Luminor investicijų valdymas" UAB
Fund manager:	Vytenis Lapinskas
Custodian bank:	Luminor Bank AS
Date of inception:	2019.01.02

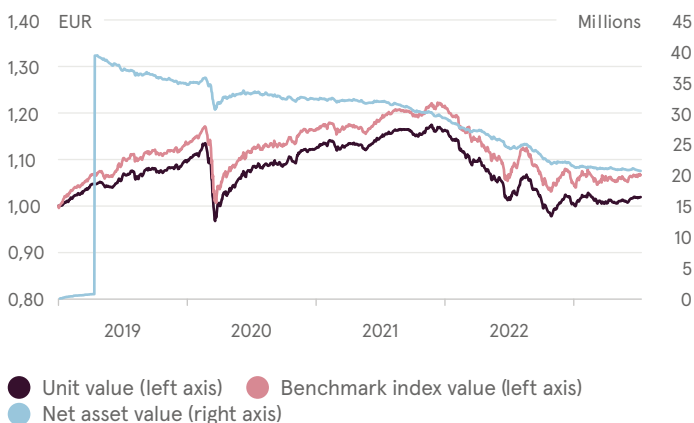

Fund description

This fund is mostly aimed at people born between 1954 and 1960. The most likely share of investment in equities is 25% at the beginning and is reduced by 5 percentage points each year until it reaches 10%. The proportion invested in investment-grade debt securities of the European Union, governments of countries of the Organisation for Economic Co-operation and Development, developing countries and non-investment-grade corporates, as well as deposits, is increased accordingly.

Fund manager's commentary

Fixed income assets generated positive returns in a tightening monetary policy environment. Due to rising interest rates government bond yields rose, especially in short term debt, which suppressed price appreciation. Despite weak macroeconomic data corporate balances remained stronger than expected. This resulted in high yield fixed income outperformance relative to investment grade corporates. Bond volatility started trending down, as measured by the MOVE index, after levels not seen since the global financial crisis in the first quarter.
