Fund manager's commentary

Resilient global economy pushed equity markets to new highs and increased pension fund performance while developed market bond index was negative (0,4%). Market participants reduced their interest rate expectations thus resulting in higher yields and lower fixed income security prices. Equities were positively impacted by stable economic growth, as well as further increase in expected corporate profits from artificial intelligence growth and applications. During the first quarter developed market equity index in EUR terms returned 11,4% while emerging market equity index in EUR gained 4,8%.
